

## Year 5 and 6 iPad Program Base Apps list 2023

The Apps below are required on all student iPad devices and form an integral part of the teaching and learning program at Maranatha Christian School in 2023.

We request families install the Apps on devices prior to the commencement of the 2023 school year. The Apps are mapped to key learning skills and behaviours we encourage in learners at Maranatha Christian School.

If students are running low on space non-Base Apps will need to be removed. Families may also consider moving large files such as videos and photos into the cloud or onto another device. If you need help installing Apps or backing up your work, please contact IT Helpdesk on [helpdesk@maranatha.vic.edu.au](mailto:helpdesk@maranatha.vic.edu.au) . Prices are correct as of October 2022, however, are subject to change.
